

Posting Title: Associate Research Fellow - Immunology
Job Title: Associate Research Fellow

Posting Locations

Country	State	City
USA	MO	Saint Louis

Responsibilities:

The successful candidate(s) will have experience as an independent, laboratory-based cellular immunologist. Demonstrated success in hypothesis-driven biological and pharmacologic research is important. The successful candidate will be responsible for the strategic design and execution of cellular immunology efforts to support the Inflammation TA Portfolio. In addition they will ensure the continued development of breadth and depth of technology and capabilities within cellular immunology. The successful candidate will be a key leader on Discovery projects in the Inflammation TA. Demonstrated aptitude in coaching and developing colleagues will be highly valued.

Qualifications:

PhD or equivalent with >5 years post-doctoral experience. R-track level will be commensurate with background and years of experience. Experience in T cell biology, regulation of immune response and/or acquired immunity is essential. Project and people leader experience is desirable. Strong oral communication and written skills are essential. Successful candidate will have demonstrated success in leading and working in a team environment

Pfizer is committed to equal opportunity in the terms and conditions of employment for all employees and job applicants without regard to race, color, religion, sex, sexual orientation, age, gender identity or gender expression, national origin, disability or veteran status. Pfizer also complies with all applicable national, state and local laws governing nondiscrimination in employment as well as employment eligibility verification requirements of the Immigration and Nationality Act.

All applicants must have authorization to work for Pfizer in the U.S. In certain circumstances it may be advantageous to Pfizer to support the application(s) for temporary visa classification and/or sponsor applications for permanent residence so that a foreign national colleague can accept or remain in a work assignment in the U. S. For certain classes of temporary visas, the resulting work authorization may be specific to Pfizer and the specific job and/or work site. Pfizer may at its business discretion decide to or refrain from obtaining, maintaining and/or extending the temporary visa status and/or sponsoring a colleague for permanent residency and /or employment eligibility, considering factors such as availability of qualified U.S. workers and the colleague's long-term prospects for securing lawful permanent residence, among other reasons.

Employment applicants requiring immigration sponsorship must disclose, when initial application for employment is made, whether or not they are legally authorized to work for Pfizer in the U.S. and, if so, whether that authorization permits them to work in the

job they seek. In no case should Pfizer's support of a colleagues temporary visa application or sponsorship of a colleague for permanent residence be construed to guarantee success of that application or amend or otherwise invalidate the at-will employment relationship between the colleague and Pfizer.

Imagine a career that touches the lives of people everywhere. Imagine an opportunity to reach beyond your area of expertise to make an impact on something greater than the bottom line. Imagine playing a key role in some of the most critical issues facing healthcare today. This is your career at Pfizer - a career unlike any other.
